

MOHAMMED ABDULLAH AL-SHUAIBI

AI & Automation Specialist | Data Analytics | Business Development

Riyadh, Saudi Arabia | [0563512112](tel:0563512112) | moed99695@gmail.com | [LinkedIn](#)

PROFESSIONAL SUMMARY

AI & Automation Specialist with a Computer Science background and 3+ years of experience in operations, data, and accounting. Built AI automation systems and real-time dashboards that significantly accelerated delivery and improved output quality. Committed to leaving a lasting mark on every project by using AI to turn data into decisions that serve business goals and deliver the best possible results.

CORE COMPETENCIES

AI Automation | Workflow Automation | Data Analysis | Business Development ,
Planning and Process Improvement | Problem Solving | Project Coordination | Team Leadership

WORK EXPERIENCE

Project Coordinator – AI & Automation (Co-op) | Rowwad Translation Center Apr 2026 – Aug 2026

- Coordinated the translation and voice-recording of religious videos, such as Wudu and Prayer guides, into languages worldwide, supervising 5 editors and 5 language supervisors, each managing native-speaker linguists in their own languages; delivered 40+ approved videos, now published for Muslims in their native languages.
- Designed a stage-gate workflow with dedicated follow-up, voice-recording, and approval mechanisms, where no stage starts before the previous one is approved, ending supervisor–linguist re-recording loops and cutting delivery time from up to 2 weeks to ~4 days.
- Resolved bottlenecks by re-prioritizing, replacing late editors, and cleaning audio with Adobe Podcast.
- Introduced a point-by-point final QA check against source videos, reducing post-delivery issues by ~97%.
- Built an AI voice pipeline with Claude Code and Apps Script, using Claude, ElevenLabs, and Gemini via APIs to correct, voice, and verify scripts; generated 200+ audio clips in one day.
- Built a real-time Python dashboard linked to the dubbing system API for management visibility.

Operations Assistant | Mozzn Factory Jun 2025 – Jan 2026

- Prepared production schedules and coordinated resources to keep daily workflows on track.
- Verified equipment readiness before each run, managed inventory, and inspected incoming crop quality.
- Applied preventive safety measures to minimize fire and injury risks on the production floor.

Data Collector – Lead Generation | Mozzn Factory Apr 2025 – May 2025

- Collected 7,000+ B2B leads across 8 major Saudi cities using Leads-Sniper.
- Cleaned and segmented the data into 3,000 qualified prospects (cafés, roasteries, markets) for the sales team.

Accountant | Beautiful Smile Dental Company, Riyadh Feb 2021 – Dec 2022

- Managed accounts exceeding SAR 1M, recording daily invoices and expenses and preparing AR reports.
- Processed payroll, posted daily journal entries, and performed weekly bank reconciliations to ensure accuracy.

Online Store Operator | Mozzn Factory Aug 2020 – Oct 2020

- Helped launch the online store (product photography, listings, inventory setup), then ran it end to end: receiving and fulfilling orders, coordinating deliveries, handling customer support.

TECHNICAL SKILLS

AI & Automation: Claude Code, Gemini, ElevenLabs, AI Agents, Prompt Engineering, Google Apps Script

Data & Analytics: Python, API Integration, Dashboards, Data Cleaning & Segmentation, Google Sheets, Excel

Tools: Cursor AI, Adobe Podcast, Leads-Sniper, Google Workspace, Microsoft Office

Languages: Arabic (Native), English (Advanced)

CERTIFICATIONS

Google: [Google AI Essentials](#). **GOOSTA Academy:** [Leadership Accelerators \(2024\)](#).

Coursera: Build Your Personal Agent (Capstone). **LinkedIn Learning:** [Data Science](#)

Misk Foundation: [Misk Startup School Masterclasses](#) | **Anthropic Academy:** [Claude AI Certifications](#) |

EDUCATION

Bachelor of Computer Science | Arab Open University
